INTRODUCTION

RUBBER COATING We are coating rolls upto 10,200 mm in length and 2000 mm in diameter. We are using the latest technology of auto strip building of rolls.

POLYURETHANE PRODUCTS We are coating rolls and are making PU components using the latest Auto dispensing system. This system is from Baule (France).

Roll Grinding Capacity: We are grinding and cambering Rubber / PU / Metal Roll up to 10,200 mm in length and 2000 mm in diameter using grinders of Churchill - UK and REMCO - USA (Computerised grinding and cambering system).

QUALITY CONTROL We are an ISO 9001 company and believe in manufacturing the best quality coating. Our laboratory and quality control is fully equipped with all the checking and testing facilities required for development of best quality coating. It includes Rheometer, Ageing ovens, Muffle furnace, Mitutoyo surface testers, Mitutoyo Roll Caliper, P&J Hardness tester and various other equipments.

OTHER FACILITIES Grit Blasting, EOT Crane - 20 Tons, Computerised Dynamic Balancing, Lathes upto 40 feet etc.

PERFORMANCE GUARANTEE Our coating is guaranteed against any bonding failure due to manufacturing defect.

INDUSTRIES SERVED

PAPER INDUSTRIES We are coating Press rolls, Breast rolls, Couch rolls, Looper rolls, M.G.Touch rolls and various other types of roll.

STEEL PLANTS We are manufacturing rollers for the Cold Rolling Mills. The rolls manufactured are for Pickling Line, CGL Line, ECL Line, Colour Coating Lines etc.

The types of rolls manufactured are squeeze rolls, Bridle rolls, Deflector rolls, Pinch rolls, Looper rolls, and other similar applications.

OTHER INDUSTRIES We are rubberising rolls for Textile industries, Printing Industries, Lamination Industries, Tanneries, Plywood Industries, Asbestos Industries etc.

ENGINEERING SERVICE New rolls as per requirement.
